

SETUP GUIDE | 2026 EDITION

Build \$10,000 Websites For Free

Using Claude Code + One Line of Code

4 Simple Steps

Zero Design Skills

Pro-Level Results

```
terminal
$ claude

> Building your professional website...
> Installing animations & components...
> Website ready!
```

Created by

Lindsay

Follow along. Build in minutes. No coding experience required.

What You're Building

A professional, animated website using AI — no design skills needed.

What You'll Need

- >> A computer with Terminal access
Mac, Windows, or Linux
- >> An internet connection
To install packages
- >> 5 minutes of your time
That's literally it

What You'll Get

- Professional website with smooth animations
- Pre-built UI components from 21st.dev
- Framer Motion powered transitions
- Clean, modern design — no templates needed
- Full code ownership — host anywhere

Total Setup Time: ~5 minutes

1 Install Claude Code

Claude Code is Anthropic's AI coding agent that runs in your terminal.

1. Go to the Claude Code install page:

<https://docs.anthropic.com/en/docs/claude-code>

2. Copy the install command and paste into your terminal:

Terminal

PRO TIP Make sure you have Node.js installed first. Download it from nodejs.org if needed.

2 Install Framer Motion

This powers all the smooth animations on your website.

1. Go to the Framer Motion docs:

<https://motion.dev/docs/react-quick-start>

2. Copy and paste the install command into your terminal:

Terminal

PRO TIP Run this inside your project folder so it installs in the right place.

3 Install UI UX Pro Max Skill

This skill supercharges Claude Code to build stunning websites.

1. Download the UI UX Pro Max skill file
2. Open Claude Code in your terminal and tell it:

Claude Code

3. Claude Code handles the rest automatically.

PRO TIP This skill teaches Claude Code professional design patterns and best practices.

4 Add 21st.dev Components

Premium UI components that make your site look like a \$10K build.

1. Go to 21st.dev:

`https://21st.dev`

2. Copy the integration line from their site
3. Paste it into Claude Code and watch the magic:

Claude Code

That's it. Your professional website is ready.

Quick Reference

1

Install Claude Code

```
npm install -g @anthropic-ai/claude-code
```

docs.anthropic.com/en/docs/claude-code

2

Install Framer Motion

```
npm install framer-motion
```

motion.dev/docs/react-quick-start

3

Add UI UX Pro Max Skill

Tell Claude Code to install it

Download the skill file

4

Add 21st.dev Components

Paste the setup line into Claude Code

21st.dev
